HERE AND THERE.

A new depot will soon be built at Valley Center.

Sandusky people would like to have standard time adopted in their city.

Gagetown will soon install an electric light plant. The water works system is already in.

At Elkton the Fair Association will have the fair grounds wired for electricity for the fall fair.

A modern air pump will be installed at the water works plant in Marlette, the cost to be \$1,000.

Because of numerous improvements to the power plant, Capac citizens are forced for a time to do without electric lights.

Oliver Gordon, of near Crosswell, had his thumb bitten completely off by a horse on which he was placing a bridle.

Crosswell Business Men's Association is negotiating with a canning company with the view of locating a cannery in the town.

It is expected that the river boat which will run between Harbor Beach and Port Huron will make her first trip tomorrow, Friday.

Harbor Beach men are interested in putting the years-ago-used race track in good order and expect to have one of the best tracks in the state.

A class of sixty was confirmed in the Catholic church at Crosswell last Monday morning. Bishop Kelly, of Ann Arbor, was assisted by Fr. Culhane, of Yale, and others.

The Grand Trunk depot at Imlay City will be used as a union station. It is likely that the P. O. & N. depot will be discontinued and all trains will stop at the G. T. depot.

Mussey township farmers are in hard luck because the men they engaged for the entire season of 8 to 10 months have quit their jobs for work by the day at big wages.

About half of Lexington's business men dropped their work and went to the canning factory Friday and Saturday evenings to help when the rush of peas and berries came.

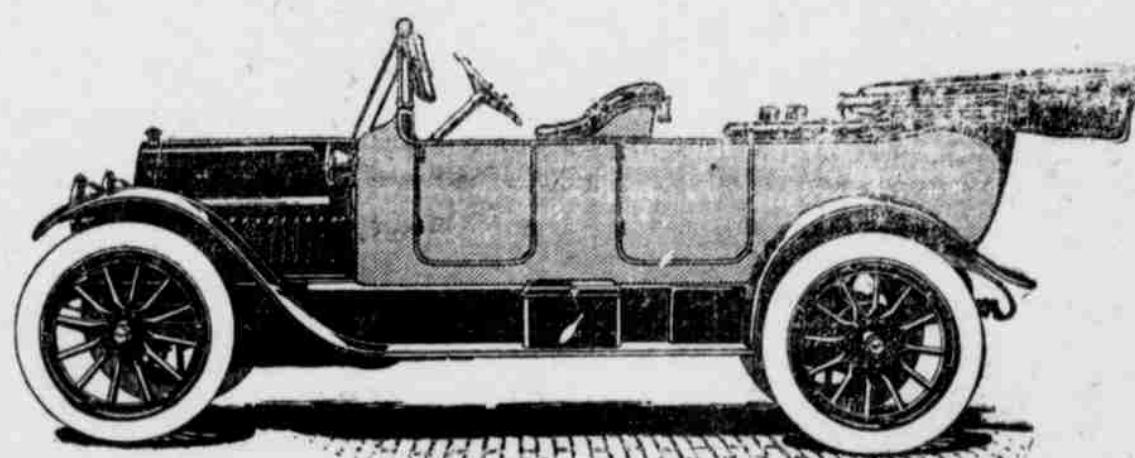

C. M. Banor, of Minden City, agent for the Columbia Oil Co., was fined \$5.00 and costs for delivering kerosene oil in a bright red barrel marked gasoline. This is a violation of the state law.

James E. Millikin, of Kingston, former editor and publisher of the Kingston News, which he was obliged to give up on account of ill-health, died last week. He was about thirty-two years old.

Harry Sharp, a graduate of the Brown City school a year ago, has been appointed a carrier of parcels in Pontiac at \$800 per year. Sharp took the civil service examination and received an average standing of 90 per cent.

Twenty Brown City men and near-by farmers gathered at the home of Arthur Morrison, who is sick and, and gave him a big lift with his hay. Twenty acres of hay and seven acres of wheat were harvested and another three acres of wheat shocked. A deed well worth while.

What is This Dahl Punctureless Tire?

It consists of a resilient cushion or filler made of vegetable oils and other ingredients with which the outer casing is filled and when filled, is compressed in the casing by means of the tools furnished with each set of tires. The shock absorbing qualities of this filler are substantially the same as the pneumatic tire and when properly installed upon a car has the same easy riding qualities of the air tires. The filler is moulded when made, to exactly fit the different size casings and can be used in connection with any make of casings. It is placed inside the casing and takes the place of the inner tube, which is discarded. Heat or cold does not affect it and it does not flatten nor lose its resiliency from standing.

What This Filler is Not

It is not a soft gummy mixture, like some so-called pneumatic fillers, pumped into the inner tube and only good for a short time. This filler of ours is cast or moulded to fit the casing and is in substance like rubber, but is much more resilient than solid rubber and contains no moisture to evaporate or dry out.

We do not use the inner tube at all

Our filler does not wear out, but when your casing is worn out you take it off and put a new one on the same filler. No delay, no stopping by the road side in the hot sun to repair blowouts or slow leaks. Just one round of pleasure. Think it over.

We are agents for the Gray Motor Gasoline Engine, put up especially for farm use. Simple of construction, easily operated. Call and look this engine over. We handle Coal, Fertilizer, Lehigh Cement and all kinds of Seeds.
